Crews at the Stockyard Event Center are preparing installation of the main entry doors and are creating the front entry vestibule. Construction has also begun on the exterior staircase that will connect to the balcony on the west side of the building.

Inside, drywall installation is nearly complete and interior painting has begun.

Bettie Cram Drive work continues, underground utilities are complete and preparations for asphalt paving are underway.

Construction activities are underway on the new National Western Drive. Roughly 10,000 feet of new wastewater pipes are onsite and ready for installation in coming months.

# THANK YOU!
